## **Declaration regarding the use of “Conflict Minerals”**

### **Section 1502 of H.R. 4173 (the Dodd-Frank Wall Street Reform and Consumer Protection Act)**

---

This legislation describes certain minerals and calls them “Conflict Minerals” They are cassiterite, Columbite-tantalite, gold and wolframite and derivatives thereof, limited to tin, tungsten, tantalum and gold. The legislation also specifies “Covered Countries” which is defined as the Democratic Republic of the Congo (DRC) and adjoining countries. The Securities and Exchange Commission (SEC) has issued final rules requiring all publicly traded companies to disclose and report their use of “Conflict Minerals.”

In order to properly respond to questions from our customers regarding the presence of “Conflict Minerals” in any of our products and if such “Conflict Minerals” are present if they come from a “Covered Country”, Posa-Cut Corporation asked each of our material suppliers and coating suppliers to provide us with a statement on this issue.

All of these suppliers responded in writing and stated that either they did not have “Conflict Minerals” in the product they supply to Posa-Cut or if there are “Conflict Minerals” present in the product it is necessary to the functionality or production of that product and that no “Conflict Minerals” come from a Covered Country:

Please feel free to contact us with any questions.

Regards

Kevin O'Brien  
President
